ESF-10 Reps Call
10/10/2017 1100

Steve:

- Video conference with Administrator scheduled for today
- Beaumont is out of potable water – pumps shutdown
- JIC is being setup in Austin, sending PIO, will be covered under current MA 1, however MA will have to be amended
 - 213 was requested for PIO, may be from R7
 - Patricia Rauscha (?) from FEMA requested JIC for D. Gray
- “Big MA” (ESF-10) may have to be amended also
 - Talk to Kelly Cook RE cost share issue with the state
 - End date set for Sept 30, 2017

Mike:

- Emergency Services Branch Director at FEMA wants 2 ppl to man SOC
 - Greg Lissey (?) has been deployed and will arrive 9/1/2017
 - Clarify ask, let REOC know, 213s will be submitted
 - Administrator??? Who knows?
 - According to Carl Edlund – Administrator is still in town, will meet with governor, Prez coming tomorrow (supposedly)
- FEMA thinks a MA needs to be developed to capture lessons learned from previous hurricane events to guide current response

Matt:

- Hazard evaluation of containers:
 - TCEQ was going to be doing debris assessments (outside of ESF-10) but now Regional Office will do
 - Water Assessment team is out
 - IAP was going to be completed this AM, but waiting on additional information
 - Bravo branch will be added to org chart with nothing under it
- Need to develop a plan to communicate when EPA resources arrive
 - Matt will confirm for next two days

Misc:

- CISM fact sheet will be sent by Steve Lisa Bokun to include in deployment package
- Add plan to communicate when EPA resources arrive to deployment package
